

HEAVY  
DUTY

# 5033

# HexArmor®

The SteelLeather® is not your typical leather driver's glove. We have upped the performance scale for maintenance and mechanic's work. The gloves introduce innovative industrial puncture protection into a product that stands up to the toughest applications while allowing users the dexterity and durability necessary to get the job done. HexArmor® products are engineered to provide users with the highest levels of protection in areas where risk is the greatest, helping reduce injuries and lower PPE costs in the harshest work environments.
